## Financial Sponsor Funding Opportunities

We appreciate the support of the financial sponsors that make this educational opportunity possible. Our students not only further their education, but they increase their interest in the sciences, develop critical thinking skills, communication skills, experience in project management, and academic cross training that will benefit them for the rest of their lives.

**Your dollars are well invested in TCRSF, which is an all-volunteer 501c3 educational non-profit organization.** We offer this list of funding opportunities to show our appreciation and to give as much public exposure as we can to our corporate benefactors.
